VENTILATION (Continued)  
The Government of Ontario is pleased to announce the results of its investigation into the ventilation of buildings. The study was conducted by the Department of Health and the Ministry of Labour. It is now published in a report which will be available to the public shortly. The report contains a detailed description of the ventilation systems used in various types of buildings and a comparison of the results with those obtained from other studies. It also contains a number of recommendations which will help to improve the ventilation of buildings and to protect the health of the occupants. The report is available in both English and French. It may be obtained from the Department of Health, 125 Queen's Park, Toronto, Ontario, Canada. The price is \$2.00 per copy plus postage. Payment may be made by cheque or money order.
